At least four times the crown of Eng-land has been inpawn. Henry III. and Henry V., Edward III. and Richard II. all resorded to this means of raising mon-ey. The merchants of Flanders once had possession of the crown, the city of London held it as security for \$10,000. And it was pledged at another time for \$100,000. Edward III. disposed of it to the Bishop of Winchester for \$67,000, and Charles II. would have used the crown as a personal asset if he had been able to turn it into money.
